

Oliver Iacob

Full Stack Developer

I am a disciplined and ambitious person, I love programming and always welcome new challenges. I want to learn new technologies and sharpen my current frontend and backend skills. I like working with other people and I'm open to new ideas. I enjoy helping others and I don't hesitate to ask for help myself.

WORK EXPERIENCE

Freelancer Programmer CleanCodeDevelopment

12/2022 - Present

Bucharest, Romania

PERSONAL PROJECTS

AnimeJourney -

<https://github.com/IacobOliver/AnimeJourney>
(08/2023 - Present)

- Dive into the world of anime, and find your favorite ones to chart your anime journey. This project is made with Java, JavaScript, React, SpringBoot, PostgreSQL and more others to give you a unique experience, discovering the best and the newest anime, with a score and reviews from other people for you to enjoy the best content!

RestaurantMania -

<https://github.com/IacobOliver/RestaurantMania>
(07/2023 - Present)

- RestaurantMania is a web application made with Java, Spring, React, JavaScript and more. Designed to help users easily and quickly find their desired restaurants, it provides a comprehensive list of restaurants with detailed information, including location, operating hours, menus, prices, product images, and ratings. Users can also publish their own restaurants and easily update their content.

EmployeeMandness (04/2023 - 05/2023)

- This is a solo project where I learned to use advanced MERN (Mongo, Express.js, React, Node.js) stack operations and routing. The project focuses on managing employee data for a company, allowing a wide variety of operations on its database.
